

Historic Climb 2017 ***Chanteloup Les Vignes***

Listen and see evolving several of Grand Prix prewar's cars in a village with deep streets is not a commonplace show, no more for the crews than for the spectators,

Add to this some motorcycles and side-cars of competition and offer them, alternately, the ascent of the historic coast - limited today to 900 meters - that include 8 bends and a slope reaching 14 %, and at this point you can feel the enjoyment of the drivers when they hear the roar of their engine, and the astonishment of the spectators who are impressed by the vehicles' performance.

Sprinkle all of this with a bit of music and with some enlightened comments coming from real encyclopediae of the history of the automobile, add on a lot of sun and you have the recipe of a beautiful Sunday.

It's the challenge that a group of car lovers will take up again on Sunday , June 4 th 2017.

As usual, since several years already, we'll begin this weekend with a prologue on Saturday, June 3 rd in Lyons-la-Forêt where we'll join a lot of foreign crews.
