

Historic Climb 2018 ***Chanteloup Les Vignes***

Listen and see evolving several of Grand Prix prewar's cars in a village with deep streets is not a commonplace show, no more for the crews than for the spectators,

Add to this some motorcycles and side-cars of competition and offer them, alternately, the ascent of the historic coast - limited today to 900 meters - that include 8 bends and a slope reaching 14 %, and at this point you can feel the enjoyment of the drivers when they hear the roar of their engine, and the astonishment of the spectators who are impressed by the vehicles' performance.

Sprinkle all of this with a bit of music and with some enlightened comments coming from real encyclopediae of the history of the automobile, add on a lot of sun and you have the recipe of a beautiful Sunday.

It's the challenge that a group of car lovers will take up again on Sunday , June 3rd 2018.

As usual, since several years already, we'll begin this weekend with a prologue on Saturday, June 2nd in Lyons-la-Forêt where we'll join a lot of foreign crews. Lyons-la-Forêt will open to us its historic climb (numerous hill climbs was competed here in the 60s) then we will be welcomed at its famous covered market to show the cars to its inhabitants.

After having lunch at Lyons la Forêt we will get back, by a tourist itinerary through "VEXIN" to hotel Campanile of "Villennes sur Seine" to the friendship glass, from there a bus will take you in a restaurant surrounding for evening with animation, then at night in the hotel Campanille for those who wish it.

On Sunday, June 3rd meeting at Saint Roch's car park in Chanteloup-les-Vignes at 9:30 am for the ascent of the historic coast as every year since 1998, hundred-years-old birthday of the first World Automobile Hill Climb.
